

## Correction

I would like to report an erratum to the paper titled ‘Modeling exposure-lag-response associations with distributed lag non-linear models’ by Gasparrini, *Statistics in Medicine*. The subscript of the vector  $\mathbf{1}_{v_x \cdot v_\ell}^\top$  in Equation 7 is wrong. The vector should have length  $L - \ell_0 + 1$ , and not  $v_x \cdot v_\ell$ . The correct version of Equation 7 is

$$s(x, t; \eta) = \left( \mathbf{1}_{L-\ell_0+1}^\top \mathbf{A}_{x,t} \right) \eta = \mathbf{w}_{x,t}^\top \eta .$$

This correction does not affect the following equations reported in the paper, which are correct.

I apologize for the inconvenience this error may have caused.

A. GASPARRINI
